Patient Testimonial

Patient Name Kelly Altemose

Date 9/22/11

Why I Entered the Office:

I was referred to Back 2 Health by Dr. Mazza for
pain that I was experiencing in my neck and shoulders.
I had surgery in my neck a year ago and I didn't
want to have surgery again only a year later.

How Chiropractic Helped Me:

I have been a patient for only a short time - two to
three weeks. I feel a tremendous relief in that short
amount of time. The tension and pain that I had
is tolerable now and I can't wait until I have
no pain at all. I actually look forward to every
appointment that I have because I know when I
walk out I will feel more relaxed and on my way
to pain free days.
