Patient Testimonial

Patient Name Linda Besecker

Date Jan. 20, 2012

Why I Entered the Office:

I had back pain for several years and after a bad fall it became intolerable. Back to Health was highly recommended by several friends.

How Chiropractic Helped Me:

I highly recommend Back to Health to everyone. The doctors and staff are just remarkable and I feel so much better. I especially am impressed with the massages by Johanna. I have such relief and I am always anxious to come back for my next massage. She knows just what area to work on without me saying a word. Johanna has made such a positive impact upon my life and I would like others to be as fortunate as I am by being a patient at Back to Health.
